

Card order

Using the "*Profile - Opus Card*" menu, you can order your child's card as soon as the school gives you access.

Read the consent to the transmission of your personal information and click on "Accept and continue". This information will be sent to the Opus card ordering system.

The screenshot shows the Pluriportail interface for Collège Plurilogic. The user is logged in as Josée (mère), Guardian (Josée). The main content area displays a consent form titled "CONSENT TO THE TRANSMISSION OF PERSONAL INFORMATION".

CONSENT TO THE TRANSMISSION OF PERSONAL INFORMATION

I consent to the school institution or the School Board transmitting to the transit service provider any information necessary to verify my student status or the student status of the child of whom I am the parent or tutor:

I accept that:

1. The school institution or School Board shall provide the transit service provider with the following personal information:
 - A. Surname and first name as transmitted to the Ministère de l'Éducation
 - B. Date of birth
 - C. Address and postal code
 - D. Email address for correspondence and transmission of the purchase receipt
 - E. Photo
 - F. Permanent code
 - G. Internal identification number at my institution
 - H. Telephone number
 - I. Student status (full-time or not)
 - J. Language of correspondence
2. This information is provided to the transit service provider by the school institution or the School Board at my request and must be used for the sole purpose of obtaining a photo ID OPUS card;
3. I am not obliged to proceed in this manner to purchase a photo ID OPUS card. If I prefer, I can buy the card directly at the transit service provider or travel on the network using an OPUS card without photo or regular fare tickets;
4. The information will be processed and used by the transit service provider in accordance with the **Act respecting Access to documents held by public bodies and the Protection of personal information** (chapter A-2.1) and kept during the validity period of the privilege, + 180 days. Any recourse, complaint or question I may have regarding the storage and/or use of the transferred information should be addressed to the transit service provider that issued the card.

Note that the transit service provider reserves the right to verify the student's status during the year and to revoke the student privilege of those who are no longer enrolled full-time as defined in the Act respecting financial assistance for education expenses during the semester for which proof was provided.

A photo of a young girl is displayed below the text. At the bottom of the form, there is a button labeled "Accept and continue".

The left sidebar contains navigation options: Classes, Community, Finances, Library, Profile and documents, Elsewhere on the web, and Return to classic design. The "Opus card" option is highlighted under "Profile and documents".

The bottom right corner of the page shows the time 14:48.

The photo is mandatory and if your child does not have one, you cannot order their card. You can however upload a photo via the "Profile - Pluripage" menu.

As soon as a manager of your school makes your photo official, you will be able to complete your order.

Proceed to order the Opus card

At this time, your information is transferred and redirected outside of the Pluriportail to the secure ordering system.

Just follow the instructions.

OPUS Frequently Asked Questions | Français

READY FOR YOUR PHOTO OPUS CARD?
